

## EXPERIENCES

*"I'm so impressed with the Report Analysis. We were camping with friends. I knew we were dehydrated and I knew my liver was having issues. When our Reports came back with the pillars showing hydration as the most important for both of us and liver twice for me, I thought, 'my goodness, these reports are telling on us' which made me believe in them even more. It just reinforced the importance of hydration. These reports are amazing. Now that we are home, we are on top of drinking our water." - 65 yr old female*

*"I tried to improve my liver for 2 years. I tried many supplements and treatments without any noticeable results. When my VoiceWise report showed that the liver was being influenced by my emotions, I said a prayer of love while holding my hands over my liver every day. Within just 3 weeks my liver improved and is now completely normal!" -51 yr old female*

## Why Choose Frequency Medicine?

✓ Real-Time Insight – Identify imbalances before they manifest physically.

✓ Personalized Frequencies – Target stressors unique to your body and energy field.

✓ Non-Invasive & Gentle – Works with your body's natural rhythms for deep restoration.
